To Whom It May Concern:

As the System Administrator at MWW, Inc., I am happy to provide a positive reference for Penn Telecom Group, INC. I have worked directly with his company on two different occasions in the last 36 months and have been completely satisfied with the assistance/partnership.

In 2012, we partnered with Preston and utilized his knowledge to successfully complete a consolidation of our company phone lines/services. We are currently working with Preston again to further consolidate our phone lines/services, as well as completing an upgrade to our company internet services. Preston knew on both occasions that we were primarily interested in saving money while maintaining our needs, and on both occasions he has been able to provide a solution that meets our needs, while still managing to save a substantial amount of money.

I would suggest that Penn Telecom Group should be a strong candidate for the job in which they require a recommendation/reference. Thank you in advance for your consideration of Penn Telecom Group as a candidate.

Sincerely,

Jason C. Morgan

IT System Administrator/Technical Support Manager

MWW, Inc.
